ABSTRACT

Provide a concise summary of the problem, approach, main results, and contributions.

1 INTRODUCTION

Introduce the problem, motivate its importance, summarize the proposed approach, and list the main contributions.

2 RELATED WORK

Summarize the most relevant literature and explain how this work differs.

3 METHOD

Describe the proposed approach, assumptions, and technical details.

4 EXPERIMENTS

Describe the experimental setup, baselines, evaluation protocol, and results.

5 CONCLUSION

Summarize the main findings, limitations, and future directions.
